Hey! I'm
HARSH

Attendee

Tech Stack

The slide is divided into four main sections:

- Node Js**: Described as a back-end Javascript runtime environment, runs on the V8 Javascript Engine, and executes Javascript code outside a web browser.
- Digital Ocean**: Described as a technology company and cloud service provider.
- Flutter**: Described as an open-source UI software development kit created by Google. It is used to develop cross-platform applications for Android, iOS, Linux, macOS, Windows.
- MongoDB & Firebase**: Described as a NoSQL database program, MongoDB stores documents in JSON-like documents.

A person in a blue patterned shirt is standing to the right of the slide, gesturing with their hand.
