Tech Stack

The slide displays a diagram of a tech stack. At the bottom, there are five icons: a blue square with a white letter 'B', a grey diamond, a green hexagon, a yellow circle with a white 'L', and a blue circle with a white 'G'. Above these, a dashed line connects to three orange circles. From left to right, the circles are labeled: "Blockchain", "Node.js Deployed on Digital Ocean", and "API of binance". To the right of the diagram, there are four text boxes:

- Node Js**
Node.js is a back-end Javascript runtime environment, runs on the V8 Javascript Engine, and executes Javascript code outside a web browser.
- Digital Ocean**
DigitalOcean is a technology company and cloud service provider.
- Flutter**
Flutter is an open-source UI software development kit created by Google. It is used to develop cross-platform applications for Android, iOS, Linux, macOS, Windows.
- MongoDB & Firebase**
Classified as a NoSQL database program, MongoDB stores documents in JSON-like documents.

A young man with glasses and a patterned shirt is standing to the right of the slide, gesturing with his hand as if presenting.
